equipment used in martial arts, e.g. knuckle-dusters, all types of clubs (including wooden clubs), rice flails, or fishing rods, baseball bats and other types of sticks used in various sports, cricket, golf club, hockey sticks, lacrosse racquets, clubs (including wooden clubs) - rigid or bending, e.g. metal clubs covered with leather, police truncheons, etc), paddles and oars used for kayaking and canoeing, skate-boards, all types of cues and pool sticks or similar.

## Explosives and inflammable substances

Any kind of explosive or inflammable substance which may represent a risk for passengers' and crew health or for aircraft and goods safety, eg.:

white spirit and paint solvent, alcoholic drinks of over 70% concentration per unit (140% in degrees proof), sticks of dynamite or smoke-bombs, inflammable liquid fuel as petrol/diesel oil and gas for lighters, and liquid alcohol or ethanol, detonators, detonators and fuses, explosives and exploding equipment, matches, except safety matches fireworks, all types of signalling rockets and other types of pyrotechnic materials (including mini-fireworks to expel confetti used at parties), gas and gas bottles, e.g. butane, propane, acetylene, oxygen in large volumes, grenades, mines and other explosive military devices, replica or imitation explosive materials or explosives, diving torches with inserted batteries, aerosol paintings.

## Chemicals and toxic substances

Any chemicals or toxic substances that may represent a hazard for passengers and crew health, or for aircraft and goods safety., eg.:

acids and alkalis, e.g. wet electrical batteries, fire extinguishers, materials causing contagious diseases or materials of biological hazard, e.g. infected blood, bacteria and viruses, radioactive materials, e.g. therapeutic or industrial isotopes, materials with spontaneous ignition or combustion, corrosive, caustic or bleaching substances, e.g. mercury, chlorine, all types of gas throwers, including hand throwers, containing paralysing substances, e.g. tear gas or "pepper spray", poisons.

## Liquids and products of similar consistency

water and other beverages, soups, syrups, emulsions, lotions and oils, perfumes, sprayers, hair gels and shower gels, contents of pressurised cans ( also shaving mousses, other mousses, aerosols and deodorants), pastes (also toothpastes), liquid/solid mixtures, mascara, any other products of similar consistence.

Liquids may be carried in your hand baggage but only in small amounts not exceeding 100 grams or equivalent ( 3.4 oz) per article, placed in a transparent and sealable plastic bag with a volume of no more than 1 litre (eg whose dimensions are: 18 cm x 20 cm ). The bag must be closed and the articles must fit inside it easily.

A transparent and sealable plastic bag is something through which the content can be easily seen, with no need to open it, and with a completely sealing system like zips or pressure sealing or any kind of resealable bag.

# HOLD LUGGAGE RESTRICTED ITEMS

## The carriage of the following items is forbidden in the aircraft hold Disabling or incapacitating sprays:

Spare engine parts of vehicles that contained fuel, alarm devices, explosives, in particular detonators, fuses, grenades, mines, bombs and exploding equipment, gases: propane, butane, flammable liquids, included petrol and methanol, irritating refrigeration fluids, radioactive materials, included medical and commercial isotopes, flammable solids and reactive substances, included magnesium ignition devices rockets and pyrotechnic materials, corrosive substances, included mercury and vehicle accumulators, liquid/solid flammable substances included over 70% concentration per unit alcohol, oxidising agents and organic peroxides, including bleaching agents and sets of chemical agents used for car body repairs, toxic and infector materials, included infected blood and rodenticides, underwater torches with batteries.

European  
Commission

# Prepare **liquids** for **security control**

## Which liquids can I take on my flight as hand luggage?

### YOU CAN TAKE:

Starting 31 January 2014

#### **Duty free in a sealed security bag**

The item and the receipt must remain sealed inside the security bag provided at the time of purchase

**Liquids in containers of 100ml or less** packed in a single, transparent, re-sealable 1-litre plastic bag

**Medicines and special dietary products** e.g. baby food

### YOU CANNOT TAKE:

**All other liquids must be placed in your checked (hold) luggage**

If in doubt ask your airport, airline or retailer in advance of travelling for further information

# Further information on liquids, aerosols and gels

Only certain liquids may be carried as hand luggage and they must be presented at security

The rules below apply to all liquids, aerosols, gels, pastes, lotions, foams, creams, jams, liquid/solid mixtures and other items of similar consistency

## Travelling with duty free liquids:

- ✓ Starting 31st January 2014, duty free liquids purchased from any airport or airline may be carried as hand luggage
- ✓ Your duty free liquid and receipt must be sealed at the time of purchase inside a security bag with a red border (see image)
- ✓ Do not open the security bag until you arrive at your final destination
- ✓ The security officer may need to open the security bag for screening. In case you have a connecting flight at another airport, please alert the security officer so your duty free liquids may be re-sealed in a new security bag

## Travelling with other liquids, aerosols and gels:

- ✓ **ALLOWED:** Liquids in containers of 100ml or less packed in a single transparent, re-sealable 1-litre plastic bag (see image)
- ✓ **ALLOWED:** Medicines & special dietary products, such as baby food, vital for the trip. You may be asked for proof of authenticity
- ✗ **NOT ALLOWED:** All other liquids, aerosols and gels should be placed in your checked (hold) luggage

## At the airport:

- ▣ **Present your liquids separately** from other hand luggage for screening at security
- ▣ Exceptionally, security may open bottles or containers for screening
- ▣ Exceptionally and solely for security reasons, liquids may not be permitted

If in doubt ask your airport, airline or retailer in advance of travelling for further information
